MISTER, VIRAG

SOME PICTURES FROM JOB SITE

BRIDGE JOB

BOULEVARD DES ALLUMETTIÈRES

From Promenade Lac-Des-Feés to Boulevard St Raymond
Gatineau-(Hull) near Ottawa

We greatly appreciated our first experience with your aluminium overhang brackets

As can be seen in the enclosed Pictures we have first hand experience on this particular job since we used both systems the conventional steel overhang brackets and the Hi-Lite aluminium overhang brackets

Their manipulations and installation is by far much faster than the conventional steel brackets

YOURS TRULY

FRANCESCO COLATRELLA,eng
Project Manager
